

16.5 - Inch Viola

Model - Windsor

This viola was the first of a new model that we called the Windsor. We have since made these a 16-inch with a better grade wood. This viola has a very deep and bold sound with plenty of resonance. Sometimes it sounds to me like a 'cello that you play like a viola. Very nice viola. European Maple back and European Spruce top. Ebony fittings and golden brown oil varnish. Set up with Corelli Crystal strings. Comes with a plush hard-shell case.
